PROFILE

Senior Fullstack Developer (10+ years) specializing in the design and architecture of modern web applications based on **React**, **Next.js**, and **TypeScript**. Significant experience in technical team management (Tech Lead) and complete autonomy on projects from design to deployment (Fullstack/Freelance). Seeking a role with significant technical and leadership responsibilities.

EDUCATION

Master's in Computer Science – ALMA   2014

Software Engineering Program | University of Nantes

WORK EXPERIENCE

Front-End Lead Developer   08/2022 – Present
Beeldi

- **Role:** Front-end Lead driving a B2B SaaS platform for building operations data for owners and maintenance teams.
- **Leadership & Architecture:** Led and mentored the team; introduced a Micro-Frontend setup in a monorepo with **NX/Vite**.
- **Technical:** Delivered key modules using **React 18, TypeScript, Redux/Zustand**, with extensive **GraphQL** and **Powersync**.
- **Quality:** Standardized E2E testing (Playwright) and documentation (Storybook).

Freelance Work   12/2024 – Present

- **kgytb.com** (Dec 2024 – Sept 2025) : Built a full-stack community gaming and rewards platform with KGEMS virtual currency and a VIP program. Hands-on across architecture and deployment.
  Stack : Next.js, Tailwind, Zustand, TypeScript, Vercel, TanStack.
- **Mandatory** (Esport) : Developed the esports team site and integrated the shop.
  Stack : React, Tailwind, Shopify Storefront/Hydrogen, Contentful.
- **csdrop.com** : Front-end role on a platform offering virtual Mystery Boxes with extra modes like Battles and Upgrades.
  Stack : Next.js, Tailwind, TanStack.

Front-End Developer   09/2021 – 08/2022
Obat

- **Role** : Developed a full scheduling management tool (calendar and Gantt) for artisans.
  Stack : React 17, TypeScript, Zustand, Styled Components.

Senior Consultant / Front-End Tech Lead   01/2014 – 09/2021
Ippon Technologies

- **Perfect Stay** (13 months) : Supported the competitive benchmark back office and built white-label booking solutions on the front end.
  Stack : React 16, Redux, AWS, Lambda.
- **Chanel** (19 months) – Front-End Tech Lead : Within the FAST team, defined architectures and technical choices for new critical projects (Ecatalog, RFID, Fashion Advisor apps).
  Stack : React 16, Node, Angular 5, Azure.
- **Pacifica / Crédit Agricole** (3.5 years) : Redesigned insurance customer portals (eSESAME) and advisor tools (NewSESAME) for 70,000 sellers.
  Stack : AngularJS, Java.
